# Accessibility statement

Smart Select Marketing aims to make its program information and workflows usable by as many people as possible, including people who use assistive technology. We are continuing to improve accessibility across the site.

## Using this site

You can use your browser's zoom controls to enlarge content and the keyboard to move between links and controls. A Skip to content link is available at the start of the page.

## Current limitations

Some older forms, complex data tables, generated PDFs, and third-party components may still present accessibility barriers. This statement describes our approach to improving access; it is not a claim that every page or document meets an accessibility standard.

## Report a barrier or request help

If you have difficulty using the site or need program information in another format, email concierge@nmtruecoop.org.

Please include the page address, the task you were trying to complete, and a description of the difficulty. If helpful, you can also include your browser and any assistive technology you were using.

For the text version, choose Read text version in the Accessibility panel on the site.
